DataScience: Unlock the Power of Data

DataScience Middle East specializes in delivering cutting-edge data analytics and AI solutions. With over a decade of experience in the region, we empower organizations to harness the full potential of their data, driving business growth and innovation.

What Business Challenges Are Solved?

Breaking Down Data Silos
DataScience + Denodo breaks down data silos, providing a unified view of data across the organization.

Simplified Integration
We simplify complex data integration tasks, ensuring seamless access to all data sources.

Real-Time Insights
Our advanced analytics capabilities enable real-time decision-making, enhancing business agility.

Our Solution

DataScience solutions seamlessly integrates with the Denodo Platform, enhancing data access, integration, and management capabilities through a range of services, including data integration, advanced analytics, machine learning, and business intelligence. These services help clients tackle challenges such as data silos, complex data landscapes, and the need for real-time insights.

About Denodo

Denodo is a leader in data management. The award-winning Denodo Platform is the leading data integration, management, and delivery platform using a logical approach to enable self-service BI, data science, hybrid/multi-cloud data integration, and enterprise data services. Realizing more than 400% ROI and millions of dollars in benefits, Denodo's customers across large enterprises and mid-market companies in 30+ industries have received payback in less than 6 months.

PRODUCT OVERVIEW

The Denodo Platform leverages data virtualization to seamlessly implement a logical data architecture, employing modern features such as semantic data layers, metadata management, a recommendation based, user friendly data catalog, and hybrid, multi-cloud deployment options to break down the boundaries separating applications, data, clouds, and people to support the government's mission, IT transformation initiatives, and mandates.

SOLUTION HIGHLIGHTS

<6 months payback

....

65% faster than ETL

....

30% less data preparation
