Transforming Data into Strategic Assets with RCG

At RCG Global Services, we pioneer data-driven innovation, seamlessly integrating with the industry-leading Denodo Platform to unlock the full potential of your data. Our unique offering combines over 50 years of expertise in data, analytics, and AI with Denodo's cutting-edge technology, delivering scalable, efficient, and adaptable solutions that drive business growth and operational excellence. Together, we transform complex data landscapes into actionable intelligence, empowering your enterprise to thrive in the digital age.

What Business Challenges Are Solved?

- Data Integrity and Governance: Industries often struggle with maintaining accurate, consistent, and reliable data. In industries such as insurance, RCG Global Services addresses this by implementing robust data governance policies and standards, ensuring data quality and security while meeting regulatory requirements.

- Operational Efficiency and Cost Optimization: Many businesses face challenges in optimizing operational costs and enhancing efficiency. In industries such as banking, RCG Global Services leverages automation and innovative operating models to streamline processes and reduce costs.

- Actionable Intelligence and Decision-Making: Companies often struggle to translate vast amounts of data into actionable insights. In industries such as travel & hospitality, RCG Global Services excels in creating bespoke solutions that harness the power of data, analytics, and AI to drive informed decision-making.

Our Solution

Combining RCG Global Services' data-driven innovation with the Denodo Platform creates a powerful solution that addresses critical business challenges and enhances decision-making capabilities, providing:

- Unified Data Access: Seamlessly integrates data from disparate sources without physical movement, providing a single, real-time view of data.

- Enhanced Data Quality: Ensures accurate, consistent, and reliable data across all sectors, crucial for informed decision-making.

- Scalable Architecture: Supports scalable, efficient, and adaptable data ecosystems, vital for industries like banking, insurance, and healthcare.

Girish Pai, COO
RCG Global Services

"Our partnership with Denodo exemplifies our commitment to driving data-driven transformation. By combining RCG's deep expertise in data, analytics, and AI with Denodo's advanced data virtualization platform, we deliver unparalleled solutions that empower businesses to harness the full potential of their data. This collaboration ensures that our clients not only meet their current objectives but also pave the way for future advancements."

About Denodo

Denodo is a leader in data management. The award-winning Denodo Platform is the leading data integration, management, and delivery platform using a logical approach to enable self-service BI, data science, hybrid/multi-cloud data integration, and enterprise data services. Realizing more than 400% ROI and millions of dollars in benefits, Denodo's customers across large enterprises and mid-market companies in 30+ industries have received payback in less than 6 months.

PRODUCT OVERVIEW

The Denodo Platform leverages data virtualization to seamlessly implement a logical data architecture, employing modern features such as semantic data layers, metadata management, a recommendation based, user friendly data catalog, and hybrid, multi-cloud deployment options to break down the boundaries separating applications, data, clouds, and people to support the government's mission, IT transformation initiatives, and mandates.

SOLUTION HIGHLIGHTS

<6 months payback

....

65% faster than ETL

....

30% less data preparation

What Are the Features and Benefits of the Combined Solution?

- Improved Business Agility: Real-time data access enhances responsiveness and agility, enabling businesses to quickly adapt to market changes.

- Cost Efficiency: Reduces data integration time and expense, minimizing potential inaccuracies or data loss.

- Enhanced Decision-Making: Streamlined data integration boosts the responsiveness of businesses, particularly in retail, consumer goods, and travel.

- Future-Ready Transformation: Empowers organizations to achieve immediate objectives and set the stage for ongoing progress, transforming data into a strategic asset.

About Us

At RCG Global Services, we have been pioneering data-driven innovation for over 50 years. Our mission is to deliver transformative outcomes that seamlessly blend data, analytics, and AI with comprehensive IT solutions, propelling businesses into the future. We stand at the forefront of digital transformation, championing a holistic approach to business innovation that has been our hallmark for decades.

Our expertise spans a wide range of services, including business-IT strategy, quality assurance, cloud adoption, and managed services. We excel in transforming complex challenges into actionable insights, crafting strategies, and engineering modern software products that are outcome-centric and enhance business experiences across various industries.

We are committed to empowering enterprises with actionable intelligence. By collaborating closely with our clients, we help them achieve their data-driven transformation goals, priming their data infrastructure to unlock and harness the full potential of AI. Our bespoke solutions and powerful platforms are tailored to translate data into actionable intelligence, driving decision-making that propels industries forward. In this new era of digital evolution, our focus remains steadfast on delivering outcomes that resonate with the ambitions of today's business and technology leaders, fostering an environment where data is the cornerstone of every success story.
